Resident Breeder

Passage/Winter Visitor

## RINGING DETAILS

Ringling scheme:	UK & Ireland
Age:	First Year
Ringling date:	7 July 2004
Place:	Little Aston, Sutton Coldfield, W Mids
Coordinates:	52°35'N, 1°52'W
Grid Reference:	SP0999

## FINDING DETAILS

This bird was caught again just 6 days later.  
However...

This time it was at Logie Hill, Ballchraggan,  
nr Kildary in the Scottish Highlands,  
**591km away!**

This may sound a long way but is quite common  
for a Siskin who often fly north to breed and then return south.  
It is still amazing as they only weigh 15g!
